

A Weak Heart

Seldom gets strong again without help. Awake or asleep, it never stops, and consequently has no period of rest or relaxation in which to regain lost vigor. You should avoid exertion, excitement and worry as much as possible, to relax the strain, and take Dr. Miles' Heart Cure, which is a heart tonic, to strengthen and restore vigor to the heart nerves and muscles. The symptoms of a weak heart are shortness of breath, palpitation, feeble or too rapid pulse, hungry spells, hot flashes, dizziness, smothering spells, pain in heart or side, etc.

"I had been treated for heart disease by different physicians without any improvement. Finally my doctor informed me that there was little hope of my ever being able to do a day's work again. About that time a gentleman called upon me, and said, 'God bless Miles' Heart Cure, it has made you better in a few days than I ever expected to see you again.' I am now well, having fully regained my health by the use of this remedy."

MANY FALL IN BATTLE

SALVADOREANS KILL, WOUND OR CAPTURE TWO THOUSAND GUATEMALAN TROOPS.

MEET DEFEAT IN HONDURAS

GUATEMALAN ARMY OF INVASION ALSO SUFFERS A REVERSE IN THAT COUNTRY.

San Salvador, July 16.—Saturday night the Salvadoran army again attacked the Guatemalan forces at Patana and obtained a victory over them, the Guatemalans suffering a loss of 2,000 men in killed, wounded and prisoners.

The Guatemalan army, which invaded by way of Santa Fe, was repulsed by the Honduran army.

TO SETTLE THEIR DIFFERENCES.

Guatemala and Salvador Accept Good Offices of the United States.

Washington, July 16.—Both Guatemala and Salvador have accepted the tender of the good offices of this government looking to a settlement of their differences. This information is conveyed in official dispatches received at the state department from the American diplomatic representatives in Guatemala and Salvador, announcing that the two belligerent countries have availed themselves of the tender of the good offices of the United States looking to their approaching each other in a conference having in view an adjustment of their differences, the cessation of hostilities, and the bringing about of peace.

The advice to the state department, it is stated, make no reference to the status of Honduras, although President Bonilla of Honduras Sunday announced that Honduras had made no declaration of war and "that Guatemala invaded territory without previous declaration."

It is stated that while both Guatemala and Salvador have accepted in principle the proposition of a peace conference, they yet have made no move to arbitrate. A fortnight ago an effort was made to induce the belligerents to arbitrate. The question then was whether either country had injured the other by aiding insurgents, but the recent battle resulting in the death of General Regalado, former president of Salvador and the leader of the Salvadoran troops, changed the situation. It is pointed out that as no territorial or boundary question is in dispute, the matter of indemnity for invasion of territory will be the main question.

Forwarded to the President.

So far no advice has reached this government regarding the battle Saturday night, in which the Salvadoran army defeated the Guatemalan forces at Metapan. The advice reaching the department was forwarded to the president at Oyster Bay by Acting Secretary of State Bacon, who is in charge during the absence of Secretary Root. Mr. Bacon also made arrangements to leave Washington for Oyster Bay on the midnight train. It is understood he is carrying dispatches and other papers bearing on the situation to lay before the president. All that Mr. Bacon would say on the situation was that everything was progressing favorably. The navy department has no advice from Central America.

It was stated that the next step looking to peace negotiations is the fixing of the time and place for a meeting of conferees, and that while these matters are being determined the American diplomatic representatives in Guatemala and Salvador will be the mediums through which communications will be exchanged. This procedure may consume some time.

Washington officials are now hopeful of a peaceful adjustment of the differences which have brought the Central American governments to a clash at arms.

According to the state department there have been no dispatches received from Mexico in connection with her assured co-operation in the efforts looking to peace between Guatemala and her neighbors.

MAY RESULT FAVORABLY.

Efforts of President Roosevelt to End War in Central America.

New York, July 16.—The Associated Press has received the following from Leoncio Gramajo, private secretary to Manuel Cabrera, president of Guatemala:

"It is possible that the efforts of President Roosevelt to secure a peaceful settlement of the difficulty between Guatemala and Salvador may result favorably at any moment."

Continuing, the telegram says: "Salvador has again invaded Guate-

mala from the south, in the vicinity of Jalpagua, and on the northeastern frontier. She seems to be preparing to invade between these points. On the south Salvador has a large army with artillery. The Guatemalans have given them battle and will drive them from our territory. The invasion on the northeast comes from the direction of Pinuelas. At this point we have dislodged and routed the enemy and have been pursuing them since Saturday. A Salvadoran army in the center is at present being recruited as if intending invasion from that quarter also. We will promptly drive them back here, as elsewhere.

"This aggression is going on in spite of the good offices for peace recently inaugurated by President Roosevelt.

"The Guatemalan government accepted at once the kindly intervention of the president of the United States and is now awaiting the answer of Salvador.

"President Diaz of Mexico also offered to mediate in this matter, in connection with the American government, and his offer was accepted."

IN A SCOUTING EXPEDITION.

General Regalado of Salvador Lost His Life.

Mexico City, July 16.—It is now known that General Regalado of Salvador lost his life in a scouting expedition. His army was on the border of Guatemala when he resolved to explore within the border of Guatemala. He started out accompanied only by an adjutant and a small escort, and came unexpectedly upon a large body of Guatemalan regulars. Regalado and his escort sold their lives dearly, making an heroic fight and killing many of their foes, but they were exterminated. No quarter was asked.

This account disposes of the Guatemalan official report which represented that Regalado was killed in a pitched battle. The battle that really occurred on the same day was between General Toledo's revolutionary army and Guatemalan regulars, which ended in defeat for the latter.

The consul general of Mexico in Tegucigalpa, capital of Honduras, reports officially that in spite of the strict neutrality hitherto maintained by the Honduras government, the territory of that country was invaded by Guatemalan troops, when a conflict occurred.

Honduras has more than 50,000 militia, mostly well armed, and will prove a valuable ally of Salvador and the revolutionists.

TRAGEDY RESULT OF A PLOT.

Three Men Blown to Pieces and Many Hurt in Dynamite Explosion.

Chicago, July 1.—Three men were blown to pieces, three others fatally injured and several others badly hurt by an explosion which wrecked a shanty in the McLaughlin stone quarries at Bellwood, a short distance northwest of Chicago.

There are evidences that the explosion was the result of a plot on the part of people who are at present unknown to the police. The dynamite shed of the quarry, which is at a considerable distance from the shanty which was blown up, was broken open and the dynamite carried to the building in which a number of laborers were sleeping and exploded beneath the structure. The survivors all declare that there was no dynamite around their shanty when they retired for the night.

AMERICANS IN AN ACCIDENT.

Millionaire, His Wife and a Party of Friends Injured.

London, July 16.—The Daily Mail's Copenhagen correspondent says that a motor car conveying an American millionaire named Angola, his wife and a party of friends collided with a two-horse vehicle Sunday at Scorsby hill, near Arhus, Jutland. All the passengers were seriously injured, the horses were killed and the motor car was wrecked.

Two of the women of the party are not expected to recover.

TELEGRAPHIC BREVITIES.

Part of the commercial quarter of Iquique, Chile, was destroyed by fire Thursday.

William Van Epe, a pioneer merchant of Sioux Falls and one of the most prominent business men in South Dakota, is dead.

The net value of the estate left by the late John F. McCall, former president of the New York Life Insurance company, is \$60,835.

The body of August Schwartz, three years old, who was missed from his home in a boathouse at St. Paul, has been found in the river.

The Longworths Attend a Race.

Paris, July 16.—The prize of the president of the republic at one mile, four and a half furlongs, and valued at \$20,000, was won at Maisons-la-Fitte, by William K. Vanderbilt's Maitenon. Among those at the track were President and Mme. Fallieres and Mr. and Mrs. Nicholas Longworth.

CAME AS A SURPRISE

ACCEPTANCE OF PARLIAMENT'S FAMINE BILL BY THE COUNCIL OF THE EMPIRE.

CAUSES GREAT JUBILATION

REGARDED AS VOTE OF LACK OF CONFIDENCE IN THE GOREMYKIN MINISTRY.

St. Petersburg, July 16.—The acceptance by the council of the empire without amendment of parliament's bill appropriating \$7,500,000 for famine relief came as a surprise. It has occasioned the greatest jubilation in the lower house, as it is regarded as a vote of lack of confidence in the Goremykin ministry by the upper chamber. While many of the speakers in the council really favored adoption of the cabinet's recommendations they realized that it would be a fatal mistake for the council to antagonize the lower house. Moreover, those on the inside who were aware that the negotiations between the government and Constitutional Democrats were entering the final stage naturally were influenced by current events.

According to the latest reports all the questions of principle involved in a change of the ministry have been resolved and now it is merely a matter of personalities. The emperor is still objecting to certain names proposed by the Constitutional Democrats.

Admiral Skrydloff probably will succeed the late Vice Admiral Chouknin, commander of the Black sea fleet.

The agrarian committee of the lower house, in deference to the firm protest of the Group of Toili, has rejected the proposal of M. Kutlarski of Saratov to place in the agrarian bill a provision exempting from expropriation land and stock companies and vineyards, fruit orchards and lands, under special cultivation.

GENERAL KOZLOV SLAIN.

Assassin Evidently Mistook Him for General Treppoff.

London, July 16.—A dispatch to a news agency from St. Petersburg says that General Kozlov of the headquarters staff was murdered in the park at Peterhof Saturday. His assailant used a revolver. The three shots fired were all effective. The murderer was a well dressed man. He has been arrested, but not identified. The case is regarded as mysterious, as General Kozlov was not connected with any political agitation.

The murderer, who is believed to be a social revolutionist, carried a photograph, at which he gazed attentively before firing, as if comparing it with General Kozlov. It was a photograph of General Treppoff.

ANXIOUS TO JOIN THE UNION.

Russian Guard Regiments Want to Belong to New Organization.

St. Petersburg, July 16.—At a meeting held at Gatchina, thirty miles from St. Petersburg, attended by three of the guard regiments, an officer addressed the men on the soldiers' union, which is being organized. He said that the league is democratic, and is being organized to guard the constitution and established constitutional institutions, and to prepare the army to come over to the people. The soldiers received the speech with much applause and showed eagerness to join the union, which already is very strong in Southern and Southwestern Russia, Siberia, the Caucasus and Turkestan.

THOUSANDS ARE HOMELESS.

Fire at Nizhni Novgorod Destroys Nearly Three Hundred Houses.

Nizhni Novgorod, July 16.—A fire that broke out here raged for six hours before it was checked. When it was finally extinguished 275 houses had been destroyed and more than 3,000 families had been rendered homeless. The loss is placed at \$400,000.

ONE KILLED AND FOUR HURT.

Lightning Hits People Who Sought Shelter From a Storm.

Chicago, July 16.—Frank Marson, fourteen years old, was killed and four other persons were seriously burned by lightning while seeking shelter from a rainstorm under a tree at Oak street and the Lake Shore drive. The injured are:

William Haupers, George Homan, Charles Sleeting and Joseph Sleeting.

Several buildings were struck by lightning and set on fire, the most seriously damaged being the residence of Archbishop James E. Quigley, at 623 North State street. The loss there was about \$10,000.

HOLD UP A TRAIN CREW.

Four Masked Men Commit a Darling Robbery.

Valley City, N. D., July 16.—Four masked men boarded a Soo special freight at Finsall shortly after midnight and held up the crew. They were carried out of the city on the train and a telephone message was sent to Chief of Police Burt here to meet the train.

He went to the Soo station, a mile out of town, and as the train pulled in he, together with Officer W. B. Flemming and Mat Runyan, attempted to arrest the bandits.

The men jumped from the cars and scattered in the darkness. The officers fired on them and they returned the fire.

One of them was captured by Chief Burt, but the other three escaped.

Officer Flemming was shot in the right ankle, the bone being badly shattered.

COCKRAN TALKS POLITICS.

Says He Believes Roosevelt Will Run Again.

Santa Barbara, Cal., July 16.—W. Bourke Cockran of New York, Democratic congressman and orator, who has left here for Lake Tahoe, with Miss Annie Ide, his fiancée, and party of friends, discussed just before his departure the political situation.

"In my opinion Mr. Roosevelt is the only choice for the Republican party to consider and I believe the president will be forced to accept the nomination. Likewise I think that Mr. Bryan at this time is the unanimous choice of the Democratic party for presidential candidate. I would not be surprised to see some vigorous Democrat step from the New York governorship to the White House."

SLAYER OF ADMIRAL CHOUKNIN.

Former Sailor Admits He Killed Russian Officer.

Sebastopol, July 16.—A former sailor named Shetenko confessed that he was the murderer of Vice Admiral Chouknin when arrested here.

Robbers Obtain Large Sum.

Nikolayev, Russia, July 16.—The representative of a sugar factory, while going to a bank, was waylaid and robbed of \$15,000. One of the robbers was captured and the soldiers shot another. The remainder of the band escaped.

New Terrorist Party.

Baku, July 16.—A new terrorist party styling itself, "the Red Squadron" is spreading anarchistic propaganda in this section. The circulars call upon workmen to "speak the language of the cartridge and the bomb."

Troops Attack Peasants.

Voronezh, July 16.—Troops stationed at a refinery at Oolovdavidov attacked a party of peasants bent on destroying the building. One officer was killed and many of the peasants were wounded.

GLOWING CROP PROSPECTS.

Have Made for Confidence in Trade and Industry.

New York, July 16.—Bradstreet's review of trade says trade and industry are of very large volume for an ordinarily quiet midsummer period. Glowing crop prospects with close to record possible yields of wheat and corn and large out-turns of potatoes, barley and cotton, have made for confidence in placing future orders to an extent not usual at this early date. Building continues active without apparent check; the iron and steel trades report shorter than usual summer shutdowns probable, and the likelihood of large surplus supplies of wheat and corn lead to the hope that export trade will show expansion in a short time. Late advices are, however, that low prices check the new wheat movement. It is safe to say further that the railroad interests themselves have been surprised at the immense volume of business offering, which has resulted in a gain in gross earnings of over 13 per cent for June as compared with the same month a year ago, thus far the best showing made for a late spring or early summer month. Prices of staples as a whole show some easing on revisions, due to new crop pressure, but on the whole are steady at close to the high levels of the year. The almost universal complaints of the scarcity of all kinds of labor are confirmatory of the reports of immense activity above noted.

Rising From Its Ashes.

San Francisco, July 16.—San Francisco is rising from its ashes with great rapidity. The labor situation is causing much uneasiness. In all trades except the building trades the demand is fully supplied with the exception of ordinary laborers. Several thousand such men are needed for railway construction and debris removal.

Postoffice Robbed.

Baltimore, July 16.—The postoffice at Glenburnie, a station on the Baltimore and Annapolis Short Line railroad, eight miles from this city, was robbed of about \$1,000 at night, the robbers knocking senseless the acting postmaster, Adam Wingert, whom they bound and gagged before making their escape.

M. Sarraut Improving.

Paris, July 16.—The surgeons in attendance upon M. Sarraut, who was wounded Friday in a duel with M. Pugliesi-Conti at Ville d'Avray, have issued a bulletin saying that their patient is considerably improved. The dangerous period, they say, has been passed, but complete repose has been ordered.

Amateur Aernaut Drowned.

Council Bluffs, Ia., July 16.—Ole Jensen, a butcher, aged twenty-two years, made a balloon ascension and parachute jump at Lake Manawa, a resort four miles south of Council Bluffs. He came down in the lake and was drowned. It was his only experience in ballooning.

For the third time Wm. J. Bryan is willing to be the party sacrifice.

SEVEN tons of butter per week is being shipped out of Long Prairie by the creameries of the surrounding country. That's an industry that means something to the entire community.

THE St. Cloud Times dearly loves the brethren of the republican press who are helping to boost the democratic party by saying things derogatory of the party to which they profess to be long.

A LARGE mail order house has recently been reorganized and incorporated under the New York laws, the capitalization being forty million dollars. A statement made by the bankers of the firm showed that last year the sales were \$38,700,000 and that the first five months in 1906 showed their sales to be over \$20,000,000. Advertising did it.

THE democratic papers in this district that are so earnestly opposing Mr. Buckman's renomination on the republican ticket, are not doing so without a purpose. With Buckman as the candidate they stand no show and would probably find it hard work to get a candidate of their own faith to file for the place. They would rather fight their battle at the primaries and if possible secure the nomination of a man as the republican candidate whom they think they could beat than to go up against sure defeat at the polls in November.

INHERITED wealth is a curious but almost universal folly and crime, according to the Red Wing Republican, which says: "If a man in the prime of life knew that he was stricken with a loathsome and mortal disease, one that would keep him in suffering for years but surely kill him at last, and if he knew that he could, at pleasure, transmit this to his children or keep them forever free from its ravages, what would he be likely to do? Yet men labor for a lifetime and sacrifice their honor as well as their ease that they may leave behind them something whose effects are precisely the same."

THE Alexandria Post-News concludes that the contest for the republican congressional nomination in this district promises to be a warm one. That is customary and natural. But it is a little different from the ideas the Post-News expressed a few weeks ago says the Little Falls Transcript. The claim was then made that there was an overwhelming demand among the republicans of the district for Buckman's re-nomination. That claim is no longer made, and there never was any foundation for it. There have been two warm fights in the district, and Buckman won them both, the last by a largely increased majority. His first term record won him additional support. He has in no way disappointed the voters who gave him the nomination two years ago, and he has won more friends. There is no general dissatisfaction with him, and no revolt, which some of his old-time opponents so positively claimed. Mr. Buckman's fight will be carried on energetically,

ally, with promises of success better than ever before.

SAMMY MAKES GOOD

Sam Parker, Jr., Playing Fast Base Ball In the Team at Williston, North Dakota

The Williston Herald, of July 6, in reporting the Fourth of July celebration there has the following to say of the work of a Brainerd boy:

"It is keen pleasure to watch base ball as it is played by Sammy Parker, Williston's crack short. Notwithstanding he is the lightest man on the local team, Sammy is one of the heaviest batters and is sure death. Of the seven runs Sammy crossed the pan three times, made three of the seven hits, one of which was a clean three bagger."

The following poem appeared in connection therewith:

MY BASE BALL SWEETHEART.
(Written for Sammy Parker.)

He is no grand and lofty lord
With castles across the sea,
But he is in the North Dakota League
And just thinks the world of me;
He always fielded very clean
When other shortstops blundered;
He fields nine hundred and sixteen
And bats about 300.
And when some masher on the street
At me attempts for to smile
My Sammy always hands him one
That will hold him for a while,
No wonder that I whisper "Yes,"
When lovingly he asked my mitt;
Kind hearts are more than coronets
And shortstops like Sammy hard to get.

The ladies one-half mile horse race at the celebration was won by Miss Maud Bell, a friend of the Parker's who visited Miss Ruth here last winter.

SCHOOL APPORTIONMENT

Treasurer Johnson Has Just Received The June Apportionment of School Taxes

Treasurer Johnson has received the regular June apportionment of school money. The amount received is as follows:

Sinking Fund.....	\$ 974 89
1 Mill Tax.....	1,034 63
Teachers Fund.....	13,132 59
Building Fund.....	2,504 30
Total.....	\$17,646 10

This is somewhat less than last year, when about \$19,000 was collected. The district, however, now has a floating indebtedness of not more than \$5,000 as against about \$11,000 last year, which is a very creditable showing.

DARKNESS ENDS THE CHASE.

Posse Foiled in Attempt to Capture Negro Murderer.

Pittsburg, July 12.—Darkness put an end to a chase after a negro, murderer of Henry Evans, foreman of a corps of inspectors of the Pittsburg and Western Railroad company at Willav Grove. Evans was shot by the negro, whose name is unknown, while the latter was trying to rob a camp car. A posse of county detectives, citizens and railroad men was formed and took up the pursuit. The negro made for the district about Midvale, nine miles from this city. He was sighted from time to time by the various searching parties. Just before the dusk he was run into a woods and shots were exchanged, but because of the darkness he could not be accurately located. Pickets were posted about his hiding place and are keeping watch.

ONLY SIX AT LARGE

TWENTY ITALIANS UNDER ARREST FOR KILLING A WISCONSIN OFFICER.

SEEK TO BRIBE CAPTORS

PRISONERS IN JAIL AT ELLS WORTH FEAR THEY WILL ALL BE HANGED.

Ellsworth, Wis., July 16.—With the local jail overcrowded by the captives made by the posses seeking for members of the band of Italians who murdered Constable Isaacs last Friday, the searchers have relaxed their efforts and many of the deputies have returned to their homes. Twenty members of the gang now are behind the bars, leaving but six at liberty, and these six are being watched for in the various towns and cities along the river and railroads south of Prescott. It is believed, however, that all those directly concerned in the murder have been arrested.

Extreme terror has seized on the prisoners, augmented by the reports given them by the last two captives, brought in from River Falls, that the whole twenty-six, when captured, are to be hanged for the death of the constable. They can speak but little English and have no conception of the formalities of trial by jury.

Three of the men captured attempted to bribe their captors to set them free, one offering \$15 and the other two \$20 apiece to be allowed to go. Fears of wholesale suicides on account of this terror are entertained by the authorities, and a close watch is being maintained to prevent any such acts.

It now is regarded as probable that the hearings on the charge of murder will be held next week, and it is thought possible that Saroguse, who declared when captured that the constable was killed in self-defense, will plead guilty in an effort to shield his companions.

GRADE CROSSING ACCIDENT.

Three Persons Killed and One Badly Injured.

New York, July 16.—Three persons were killed and a fourth was badly injured in a grade crossing accident on the Long Island's Manhattan Beach line in East New York. The dead are: Samuel Meanly, thirty-seven years old, hotelkeeper, Brooklyn; Samuel Meanly, Jr., four years old; Annie Meanly, nine years old.

Mr. Meanly and his children, accompanied by Max Rubin, twelve years old, were driving when struck by a Manhattan Beach express. The Rubin boy is unconscious in a hospital and may be fatally injured. Piles of dirt thrown up from excavations near the crossing obscured the view of the tracks, although a flagman declares he signalled nearly to stop.

BOY SAVES MOTHER

Harold Dorsey, of Pillager, Minn., Makes A Daring Rescue at Lake Last Week

Pillager, Minn., July 15.—By the rare heroism of her twelve-year-old son Harold, Mrs. Nancy A. Dorsey of this place was saved from death by drowning here last week.

With a party of friends, the Dorsey family were enjoying an outing at Sylvan lake on that day. While the ladies were bathing near the shore, little Harold, who was rowing near them called to his mother to wade out to the boat. Supposing the water to be shallow the lady started forward and was suddenly precipitated into the deep water which was afterward found to be many feet in depth. She sank instantly, only her imploring hand visible to her horrified companions.

Harold rowed to the spot and plunging in after his mother, succeeded in grasping her by the hair and swan toward the shore, dragging his precious burden after him. Help came from the adults of the party and mother and son were safely landed on the shore.

Harold, who is small for his age is regarded as a little hero in this vicinity.

MADE AN EXCEPTION

U. S. Land Office Permits W. A. M. Johnson to go to Pine River to take Final Proof.

W. A. M. Johnson went to Pine River today to make final proof on the homestead of Mr. Wilson, who fell from the Laurel street bridge last year and was badly injured. Mr. Wilson is paralyzed from the waist down and can only be moved on a bed. Mr. Johnson took the matter up with the commissioner of the general land office at Washington and succeeded in getting permission to go to Mr. Wilson's homestead to take the proof. Mr. Wilson has a wife and eight small children and the expense of bringing him to Brainerd would have been such as to prevent his proving up on his claim.

SHOWS DRAW CROWDS

Carnival Attractions Again Bring Out the People.

Mankato Daily Free Press: The carnival shows continue to attract crowds, and the various entertainments had crowded tents throughout last evening. The day time is so hot that most people wait until evening before "going down the line." Several of the entertainments are so long that it is impossible for a person to see all of the shows in one evening. The entertainment at the opera house takes an hour and a half of itself, while some of the tent shows take half an hour or more.

Everybody is well pleased with the shows, remarking that at least there is nothing bad about any of them, which is more than can be said of previous carnivals in this city. Undoubtedly they are the largest grade carnival attractions that have yet exhibited in Mankato.

WENT TO MOTLEY

Large Crowd went to Motley Yesterday to Attend the Funeral of the Late W. W. Wolf.

About forty Brainerdites went to Motley yesterday to pay their last respects to the memory of W. W. Wolf, who died there Friday. They were composed largely of Elks, G. A. R. and Odd Fellows. A coach was attached to No. 11 for their use and they were brought back on No. 54, arriving here about 6:30. A large crowd from Staples was also present at the funeral, which was held until after No. 12 arrived in Motley.

A HARD STRUGGLE

Many a Brainerd Citizen Finds the Struggle Hard

With a back constantly aching, With distressing urinary disorders, Daily existence is but a struggle. No need to keep it up. Doan's Kidney Pills will cure you. Brainerd people endorse this claim:

Mrs. John Olson, of 1115 Oak St., Brainerd, Minn., says: "I am sure that every sufferer from kidney troubles will find just as much satisfaction as I did from the use of Doan's Kidney Pills, and there really is no need for anyone to suffer from kidney complaint as long as this remedy can be obtained. I suffered for some time from a disturbed action of the kidneys which caused a great deal of pain and annoyance. I did not rest well at night and felt languid and tired from the time I got up in the morning until I went to bed at night. Sometimes it was hard for me to get around to attend to my household work. Hearing what Doan's kidney pills were doing for others in Brainerd I decided to try them and got a box at H. P. Dunn & Co.'s drug store and found quick relief. The improvement continued and finally resulted in a complete cure. My health is now better in every way than it was before I used Doan's kidney pills. I am glad to tell all about my case to anyone who cares to enquire."

BALLOON TRIP AT NIGHT

American Aeronaut's Amazing Experience In the Nirvana.

SAILED INTO A THUNDERSTORM

Fourteen and a Half Hours Aloft, Dr. Julian P. Thomas and M. Levee Passed Through Terrible Electrical Outburst—Ascended Eight Thousand Feet and Were Attacked by Mosquitoes in Passing Over New Jersey.

After a night flight above the clouds in a balloon, some of the time with their clothes frozen stiff and at other times in the midst of a terrific electric storm, Dr. Julian P. Thomas of New York and Charles Levee, a French aeronaut, returned safely the other night, confident that in several ways they have broken all aeronautic records in America, says the New York Herald.

They left New York in Dr. Thomas' big balloon, the Nirvana, at 6 o'clock on a recent Sunday night and for fourteen and a half hours were buffeted about over New York, Pennsylvania and New Jersey, landing on the farm of C. L. Miller, in the township of Butternut, Otsego county, N. Y., at half past 8 o'clock the next morning.

Dr. Thomas gave a description of their journey. "Immediately after rising above the city," he said, "we entered a storm stratum, and the last thing we saw was Grant's tomb as we sailed over it. We did not know whether we had crossed the Hudson or were sailing out to sea until we heard the church bells of Hackensack. Far above us the sun was then shining with marvelous radiance, while below us there were rain and clouds, and how beautiful the clouds were as we looked down upon them! Over Little Falls, N. J., we dropped within a few hundred feet of the earth and shouted my telephone number to several persons, and that message reached my wife.

"Then we rose again rapidly for the night. We were not quite sure which way we were drifting, but realized we were traveling very rapidly. Presently we entered the most terrible electrical storm imaginable. Below were the great banks of clouds that looked like mountains.

"The thunder seemed to roll along their summits and through the great cloud canyons, bursting and cracking with an effect like the splitting of the air. There was something weird in the sound of thunder below us. Above and about us there was the most wonderful display of electricity. The lightning flitted through the basket, ran up and down the ropes and played across our faces, but we did not interfere with it and it did not molest us. If you could comprehend the tranquil indifference and utter absence of fear that came to one so far above the earth you would understand why I say we did not molest the lightning. It did not seem to impress us except that we enjoyed the grandeur of the thing.

"This storm lasted from 9 o'clock until 5 in the morning. Meanwhile we were from 2,000 to 5,000 feet above the earth and going through space at probably twenty or thirty miles an hour.

"Whenever the storm abated we saw myriads of small lightning bugs far below us, and with all seriousness I am obliged to tell you that at times we were nearly devoured by mosquitoes while passing over New Jersey. Suddenly the wind changed, a little after midnight, and we felt sure we were going out to sea. I confess that this was a very unpleasant period of our journey.

"We talked the matter over and decided that we would drop down and as soon as we could see the lights of a city would alight. For miles we sped on, but no lights appeared, and then, with a distinctness that made us both spring for the valves without a spoken word, we heard the sound of water—waves beating on the shore. As we let out the gas we dropped down like a shot and landed in the top of a tree. Where we were we did not know, but it was in the mountains of northern Pennsylvania, I think.

"The treetop seemed a pretty comfortable place, and after making the ropes fast we curled up as best we could and both fell asleep to await daylight. Our nap had lasted about half an hour when there was a big crash, a sudden lurch of the balloon, and away we sailed again, carrying some of the branches in the coils of the ropes. We could see the dark peaks and forests all about us, and, realizing that the danger of the sea was past, we threw out ballast and began to go up like a feather. Up, up we went until we were two miles above the dark forests.

"I looked at Levee and saw that his lips were getting very blue, and my own fingers were of the same color. Our clothes crackled as we moved about, and I saw they were frozen. Neither of us had said anything for a long time, and when I attempted to speak to Levee my voice sounded harsh and strange.

"We're going up fast," I said, "and I don't like to go back to New York with frozen feet. What do you think we better do?"

"Levee made no reply, but his face told me what he thought. Being an experienced aeronaut, he knew better than I that it was perilous to continue our flight upward. With benumbed fingers we opened the valves again and slowly began to descend. After a time the sunlight once more came back to us, but we were still so high that it did not relieve the painful chill. Then we sailed on again."

Dr. Thomas says they went higher than any other American balloonist, went farther west and were longer in the air than any other American.

FLEES TO THE MOUNTAINS.

Tennessee Man Kills One Man and Wounds Another.

Knoxville, Tenn., July 16.—John McPherson is a fugitive from justice, charged with the murder of Grant Smith, a former merchant of this city, and the fatal wounding of Deputy Sheriff William Walker, who attempted to arrest him. Two posses are in pursuit of him. McPherson shot and killed Smith in the house of Nettie Hall, apparently without provocation. McPherson was accompanied by his father, Dr. Buck McPherson, at the time, and the two left the city in a buggy, going toward the mountains.

Deputy Sheriff Walker pursued the McPhersons and demanded the surrender of young McPherson, who shot him through the right lung. Walker will die. Young McPherson continued into the mountains, while his father returned here and surrendered, and is now in jail.

STOREHOUSE DESTROYED.

Fifth Fire Within a Few Weeks in a Cotton Company's Plant.

New York, July 16.—The fifth fire within a few weeks in the American Cotton Dock and Trust company's plant at Tompkinsville broke out from an unknown cause and destroyed the remaining storehouse and about 5,000 bales of cotton. The loss of \$50,000 will fall on the company, as the underwriters some time ago cancelled all policies on cotton, owing to the frequent fires.

Two Die in a Storm.

Denver, July 16.—During a storm here Charles F. Hollingshead, Jr., aged ten, was killed by lightning and Miss Eliza Hann, aged thirty-four, died of heart failure due to overexertion in running through the rain to her home.

PEOPLE'S PARTY CONFERENCE.

Concludes Its Work at St. Louis and Adjourns.

St. Louis, July 16.—The national committee of the People's party, which assembled here in annual conference upon the call of Chairman J. M. Ferris of Joliet, Ill., has concluded its labors and adjourned sine die.

The work accomplished consisted principally in the adoption of a resolution introduced by H. J. Mullins of Tennessee, stating that the People's party heartily agreed in the work being performed by the conference provisional committee for the purpose of concentrating and centralizing the reform organizations of the country into an integral part of the People's party; the adoption of a general address to the American people, setting forth the doctrines and principles of the party; the authorization of Colonel H. L. Bentley of Texas to continue the work he had individually pursued for sixteen years of organizing People's party county clubs throughout the United States; election of him as president of the People's party club organization and appointment of a committee to raise \$4,000 annually to defray the expenses incurred in the club federation movement; the authorization of a movement to establish a party publication organ as soon as conditions justify, and a multitude of speeches discussing the basic principles of the party.

HEAT CLAIMS THREE VICTIMS.

One Dead and Two Overcome at St. Paul.

St. Paul, July 16.—Thursday was the warmest June day in St. Paul recorded in two years, the mercury reaching 88 degrees. The humidity was high and the suffering was great. During the day there were three heat prostrations. One of the victims is dead and another probably will die. Arthur Smith at noon fell from a ladder while he was painting a city railway iron post at Seventh and Frank streets and died almost instantly.

Charles Lindquist, 899 Woodbridge street, was overcome by heat and fell from a ladder at 1032 Lincoln avenue yesterday morning. It is thought that his spine is fractured. He also is badly bruised about the body.

Katrina Schran, nine years old and living with her parents at 282 East prescott street, fell unconscious from the heat at South Robert and Congress street. She will recover.

TELEGRAPHIC BREVITIES.

The president has signed the military academy appropriation bill.

The thirty-third annual Chautauqua assembly opened Thursday at Chautauqua, N. Y., with an attendance larger than usual.

Dr. Robert Craik, seventy-seven years old, dean of the medical faculty of McGill university from 1899 to 1901, is dead at Montreal.

Roy Peterson, aged seven, son of A. Peterson of Minneapolis, was instantly killed at New Boston under the wheels of a heavily loaded wagon.

Rudolph Lacher, aged eleven years, was drowned in the Mississippi river at St. Paul while playing with an older brother and two other companions.

District Attorney John B. Moran was given the gubernatorial nomination by Massachusetts prohibitionists in their state convention in Boston.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is, by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed, it causes a humming sound or imperfect hearing and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surface.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.
